

JEAN PIERRE ANTONIO BARBA ARREDONDO

SOFTWARE ENGINEER | FULL STACK DEVELOPER

[Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

I am a Full Stack Developer with a background in Communication and experience in developing web applications using JavaScript, TypeScript, React, and Next.js. I am passionate about creating technology solutions that optimize processes and deliver value to organizations through efficient and scalable tools. I have contributed to enterprise projects and collaborated with cross-functional teams in agile environments, strengthening my analytical thinking, problem-solving, and communication skills. I am particularly interested in process automation, data management, and emerging technologies that enhance decision-making and operational efficiency, while continuing to grow professionally.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Material UI

Backend: Node.js, Ruby on Rails

Databases: PostgreSQL, SQL

Testing: Jest, Unit Testing, Integration Testing, TDD

Tools: Git, GitHub, Bit.cloud, Chrome DevTools, VS Code, Figma, Slack

Methodologies: Agile, Scrum, Responsive Design, Pair Programming, Code Reviews

PROFESSIONAL EXPERIENCE

Junior Software Engineer | EPAM Systems (Remote)

August 2025 – March 2026

Developed reusable components using React and TypeScript for a shared component library used by multiple teams, implementing unit and integration tests to ensure software quality and reliability. Contributed to the development of solutions with Next.js, managed components through Bit.cloud, and collaborated closely with designers and stakeholders to deliver consistent user experiences. Worked within cross-functional teams following Agile methodologies, contributing to the delivery of scalable and maintainable solutions.

EPAM Front-End Engineering Program

September 2024 – August 2025

Participated in EPAM Systems' Front-End Engineering Program, gaining hands-on experience with JavaScript, TypeScript, React, and modern web development practices. Collaborated in code reviews, technical workshops, and team projects while applying software engineering best practices, testing, debugging, and quality standards commonly used in professional environments.

Full Stack Web Developer (Remote)

October 2022 – July 2023

Developed web applications using JavaScript, React, Redux, HTML, and CSS, integrating REST APIs, implementing responsive interfaces, and applying software development best practices, version control, and collaborative workflows across more than 40 Full Stack projects.

Volunteer Mentor | Microverse (Remote)

October 2022 – July 2023

Provided mentorship to junior developers through code reviews, technical guidance sessions, and problem-solving support, contributing to their professional growth and successful completion of the program.

EDUCATION

Microverse - Full Stack Web Development Program

October 2022 – July 2023

UNIVERSIDAD DE LA SALLE BAJÍO – Campus Campestre

Bachelor's Degree in Communication and Marketing

August 2016 – July 2020

LANGUAGES

Spanish: Native

English: B2 (Upper Intermediate)
